Ethan.nirenberg@gmail.com | [Ethannirenberg.com](http://Ethannirenberg.com) | 774-266-6940

## Technical Skills

---

**Languages:** HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+ | Typescript | Tailwind CSS | Python | Java

**Frameworks:** React (+ hooks) | Next.js | Material-UI | Redux

**Technology:** NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub | Bitbucket

## Education

---

### University of Pennsylvania

Masters in Computer Information and Technology

**Expected Graduation 2026**

### Frontend Developer Bootcamp

Frontend Simplified

**July 2023 – OCT 2023**

### Springfield College

Bachelor of Science in Psychology

Minors: Business Management, Marketing, and Athletic Coaching

**May 2023**

## Projects

---

### Twitter Clone | [Website](#) | [GitHub](#)

- Created a fully functional web app based on the social media platform X (previously Twitter) using Firebase, Next.js, Tailwind CSS
- Functions include profiles, tweeting, comments, likes, uploading images, and deleting tweets

### E-commerce Site | [Website](#) | [GitHub](#)

- I created a fully responsive E-commerce Library, with lazy loading, skeleton loading states, a responsive cart function, and individual book pages, all using data from an API.

### Movie Search Site | [Website](#) | [GitHub](#)

- I created a movie-searching site using an API, Javascript, HTML, CSS, and React

## Experience

---

### Frontend Developer Internship

Frontend Simplified

**June 2023 - Current**

- Transformed a completely static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

### Frontend Developer Support

Frontend Simplified

**August 2023 - Current**

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript, and React best practices
- Utilized debugging best practices using Google Chrome inspect element tooling
- Simplified complex programming concepts including responsive website development, CSS layout, Promises, and API requests
